PROFESSIONAL SUMMARY

Motivated Software Engineering student pursuing a B.Tech in Artificial Intelligence, with skills in programming, Python, HTML, CSS, Java, Data Structures, and Algorithms. Passionate about building real-world AI and cloud-based solutions, and actively seeking opportunities in product-based companies

EDUCATION

Anurag University, Hyderabad B.Tech - Integrated BTech in Artificial Intelligence (Hyderabad,Telangana) CGPA -8.12	2024-2028
Sri Chaitanya Junior Kalasala, Hyderabad Intermediate - MPC CGPA - 7.89	2022-2024
St Ann's High School, Hyderabad CGPA - 9.3	2012-2022

PROJECTS

CommuteX

Developed a Smart Vehicle Route Planner web app with secure authentication, OTP login, user dashboard, and an interactive route planning interface, enabling smooth navigation and real-time user interaction.

Emergency Supply Chain Management for priority Queues

Designed a website for disaster management using priority queues and supply chain management

Domestic Waste Management Detector

Developed a domestic waste classification system that predict waste type (wet/dry/recyclable/hazardous) from household waste attributes.

SkillMatch – AI Opportunity Matching Platform (Concept)

Designed a concept for an AI-powered system that matches learners with opportunities based on verified skills.

TECHNICAL SKILLS

Languages & Core Skills : C, Python, Java, Data Structures and Algorithms

Web Development : HTML, CSS

Data Analytics Visualization: Excel

NON TECHNICAL SKILLS

Computer: Microsoft Excel, PowerPoint

Language: English, Hindi, Telugu, Tamil

Soft Skills:

- Agile
- Learner
- Versatile
- Social Facilitator
- Diligent

CERTIFICATION

- Simplilearn prompt engineering course
- Deloitte data analytics job stimulation
- Infosys nlp foundation
- Google cloud prompt design in vertex ai
- Google cloud build real world ai application with gemini and imagen
- Hackerrank problem solving (basic)
- NPTEL Data Structures Design and Algorithm
